PROFILE

Enthusiastic MERN Full Stack Developer with expertise in HTML, CSS, JavaScript, React.js, Node.js, Express.js, and MongoDB. Passionate about contributing to web development projects, with a focus on delivering innovative solutions through adaptability and a continuous drive for learning.

EDUCATION

Jspiders Training and Development Centre

MERN Stack Development

Bangalore, Karnataka

Sep 2022 – Mar 2023

Bharathiar University

Bachelor in Arts

Coimbatore, TamilNadu

Aug 2019 – Jun 2022

EXPERIENCE

MERN Stack Developer

Ametzo Technologies

Present

Kochi, Kerala

- Design and implement full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Collaborate with cross-functional teams to define, design, and ship new features.
- Develop RESTful APIs and integrate third-party services.
- Follow best practices in version control, code reviews, and Agile methodologies.
- Work with cloud platforms for deployment, monitoring, and maintenance (AWS, Azure, etc.).

PROJECTS

Travel and Safari Package Platform | *React, Node.js, Express.js, MongoDB, Tailwind, daisyUI*

- Contributed to the development of a comprehensive travel and safari package platform, including the main website and an admin-side interface.
- **Main Website:** Designed and implemented features for showcasing travel packages, handling bookings, and providing vacation planning tools.
- **Admin Interface:** Developed a role-based access system for managing packages, bookings, blogs, user accounts, and roles, ensuring efficient administrative operations.
- Actively engaged in both front-end and back-end development, ensuring a cohesive and user-friendly experience across the platform.s

E-Commerce Platform | *React, Node.js, Express.js, MongoDB, Mongoose, Bootstrap.*

- **Product Listing and Cart Management:** Users can browse a wide range of products and easily manage their shopping cart.
- **Admin and User Modules:** The platform includes separate modules for both administrators and users, ensuring tailored experiences for each role.
- **Admin Module:** Administrators have full control over product and category management, along with efficient handling of user accounts.
- **User Module:** Provides users with an intuitive interface for exploring the store, making purchases, and managing their shopping carts.
- **Live Demo:** younglife.netlify.app
- **GitHub Repository:** <https://github.com/SakkirAnvar/younglifeecommerce>

Weather Application | *Open Weather API, HTML, CSS, JavaScript, Bootstrap.*

- Weather application to check the weather of different places.
- Integrated Open Weather API for fetching weather reports.
- **GitHub Repository:** <https://github.com/SakkirAnvar/LibraryManagement-System>
